PROJECT:

PRODUCT FEATURES

Material Die-cast Aluminum

Gasket Molded Silicone

Hardware Four 8-32 stainless steel screws

DESCRIPTION

Patented extension ring system allows for proper placement of finished steplight components when the recessed housing has been improperly positioned within a wall (too deep). The ER-1503 ring extends the recessed housing towards final surface by $\frac{3}{8}$ " for each ring used.

OPTIONS

ER-1503-1 Single ring extension accommodates a recessed measurement of $0'' - \frac{3}{8}''$

ER-1503-2 Two ring extension accommodates a recessed measurement of $\frac{3}{8}'' - \frac{3}{4}''$

ER-1503-3 Three ring extension accommodates a recessed measurement of $\frac{3}{4}'' - 1 \frac{3}{8}''$
