

# SINGLE AND DOUBLE STANCHION MOUNTS

These Stanchion Mounts from Vista Architectural Lighting are constructed of heavy duty die-cast and extruded aluminum for added durability. They are specially designed for at-grade or wall-mounted applications. Models include single- or T-mounted configurations; the single standard length is 9 inches long; the standard double T configuration is 18 inches long. Custom lengths are available upon request.

## PRODUCT ADVANTAGES

- » Single- or T-mount configurations
- » Durable, die-cast and extruded aluminum construction
- » Accommodate at-grade and wall-mounted installations
- » 18 powder-coated color options
- » Custom lengths available in either configuration
